

QUICK START GUIDE:

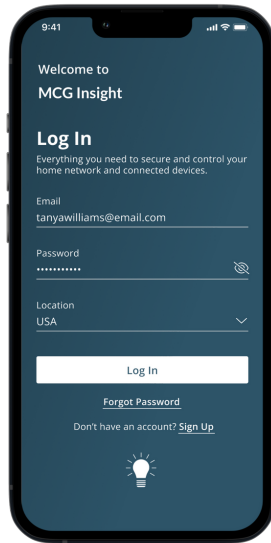

Setting up your Wi-Fi and App

1 Download the app. You can search either at the Apple App Store or Google Play Store for: **MCG Insight**, then install it on your mobile device.

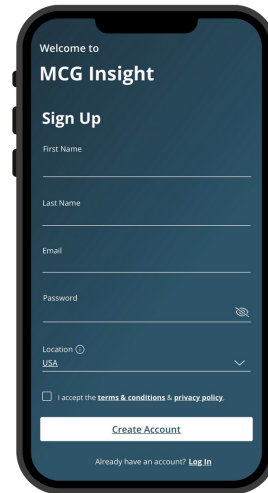

2 Select **SIGN UP** towards the bottom of the screen.

3 Enter your personal information. The password you enter here will be used to access the app.

NOTE:

Please wait at least 10 minutes after your BLAST System has been **turned up** before attempting Step 4.

4 If your system is plugged in and connected select **Yes** to continue.

Otherwise, select **Not Sure?** at the bottom of the screen and skip to steps to get things connected.

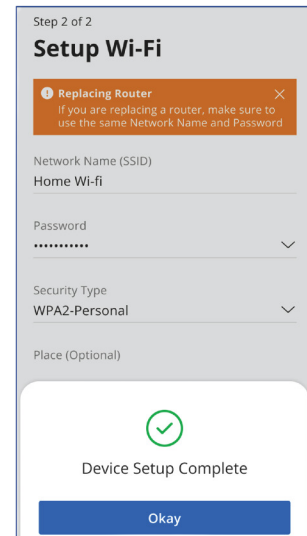

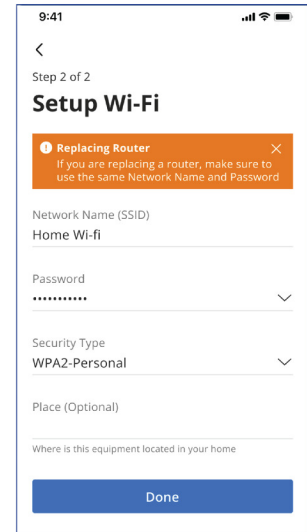

5 Tap the QR code that appears within the app. (You will be asked to allow access to your camera.) Point your camera at the QR Code found on the bottom of your GigaSPIRE BLAST System, or on the side of your GigaCenter, (example shown below). Select **OK**. After you select Submit, you may be asked to enter your account number.

6 **NOTE:** If your system is already operating with W-Fi, tap the **Click here to skip** text. Otherwise, complete these steps to set-up your Wi-Fi. Name your network and create a password.

- The Router Name will be used throughout the app.
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network, if you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

Click Submit and you're done!

GETTING STARTED WITH THE APP.

The App allows you to manage your home or small business Wi-Fi Network. You can self-install and manage your home or business within a few minutes. Download the App and start managing your home network today!
